

**“THE IMPOSSIBLE IS MADE POSSIBLE.....
AND THE POSSIBLE IS MADE ENTERTAINING”**

As an award winning and professional magician for the past 15 years. I have become one of Scotland's favourite society entertainers.

Appealing to audiences across the board I offer styles individually tailored to my clients needs and Companies such as BP, Scottish Widows, STV, Wella, Thomas Cook, BMW and Jaguar have all enjoyed the benefits of my experience. My skills are in constant demand and I perform regularly in Scotlands leading Hotels and Restaurants

At your function or promotional event I can entertain your guests by performing astonishing magic in front of their very eyes. Because I can perform to small groups, people participate in a way that most other traditional forms of entertainment cannot allow for. Rather than being performed "at" my magic involves your guests, even to the point where it happens in their own hands.

Breaking the boundaries of magic and psychological illusions and taking them to a new advanced form, lets me demonstrate my enhanced ability in a manner thats engaging, thrilling and emotional.

At weddings I can be the catalyst to ensure a wonderful and unique day. My act offers the perfect ice-breaker, bringing two families together in shared amazement, fun and laughter. Your guests can be entertained while the wedding party have their photographs taken or I can perform walk-around table magic during the meal.

Magic is fun, interactive and an extremely memorable form of sophisticated entertainment and I can assure your special occasion, will be remembered long after the event.
